Subject: Documents for the Gold King Chronology
Draft PRP Search Upper Animas 2011.05.07 w attach.pdf

Ellen – Here are the SDMS number for the first documents to build the chronology for the Gold King.

SDMS (#1570601-1570605) – These documents are the contract document for the investigation of the Gold King. These are the most recent and should be available from SDMS as of this afternoon.

SDMS #1259234(redacted version) 1259236(not redacted) – This is the PRP search report and background documents. I have attached a copy of just the report as the document in SDMS is massive and takes a long time to download from SDMS. This document provides the history on the Gold King Mine and others in Upper Cement Creek. See pages 23-65 which discusses the ownership history and pages 111-120 discusses the operational history of the Gold King.
